The Honorable Tom Harkin Chair Subcommittee on Labor-HHS-Education Appropriations Committee United States Senate Washington, DC 20510

The Honorable Jack Kingston Chair Subcommittee on Labor-HHS-Education Appropriations Committee United States House of Representatives Washington, DC 20515 The Honorable Jerry Moran Ranking Member Subcommittee on Labor-HHS-Education Appropriations Committee United States Senate Washington, DC 20510

The Honorable Rosa DeLauro Ranking Member Subcommittee on Labor-HHS-Education Appropriations Committee United States House of Representatives Washington, DC 20515

Dear Chairmen Harkin and Kingston and Ranking Members Moran and DeLauro:

The 62 undersigned members of the Health Professions and Nursing Education Coalition (HPNEC) write to urge you to include full funding for the Health Resources and Services Administration (HRSA)'s Title VII health professions and Title VIII nursing workforce development programs as you finalize fiscal year (FY) 2015 appropriations. HPNEC is an alliance of national organizations representing schools, programs, health professionals, and students dedicated to ensuring the health care workforce is trained to meet the needs of our diverse population.

Titles VII and VIII are the only federal programs focused on improving the supply, distribution, and diversity of the health professions workforce. By providing educational and training opportunities to aspiring and practicing health professionals, the programs also play a critical role in helping the workforce adapt to meet the nation's changing health care needs.

As demand for health professionals grows in the face of impending shortages, a robust investment in educating and training the workforce is key to ensuring access to high quality care for all. However, spending proposals that fail to support the full range of health professions programs under Titles VII and VIII will disrupt efforts to address some of the country's most pressing health care challenges, forcing health professions schools to eliminate recruitment and training opportunities that are essential to filling workforce gaps.

The nation faces a growing, aging population, and millions of newly insured Americans entering the health care system. While HPNEC recognizes the challenges you face in a constrained budget environment, we urge you to ensure the next generation of health professionals is

equipped to address the nation's health care complexities by providing full funding for Titles VII and VIII in FY 2015.

Sincerely,
