

Research Committee

Chair:

Lisa Satlin - Icahn School of Medicine at Mount Sinai

Members:

Max Coppes	(2020-2022) past Chair	U of Nevada - Reno
Joseph St. Geme	(2020-2022) Vice Chair	CHOP
Wade Clapp	(2021-2023) first term	U of Indiana
Stephanie Davis	(2020-2023) second term	U of North Carolina - Chapel Hill
David Gozal	(2019-2021) first term	U of Missouri
Raphael Hirsch	(2019-2021) second term	U of California, San Francisco
Jordan Orange	(2019-2021) first term	Columbia
Sally Radovick	(2019-2021) first term	Rutgers
Stephen Teach	(2019-2021) first term	George Washington
Sallie Permar	(2020-2022) first term	Cornell
Gary Silverman	(2020-2023) first term	Washington University in St. Louis
Terry Dermody	(2020-2023) first term	U of Pittsburgh
Yatin M. Vyas	(2022-2024) first term	Penn State

Research Committee: Accomplishments Last 12 Months

- **Make a Difference for Kids: Become a Pediatric Scientist** webinar series (<https://amspdc.org/research-committee-webinar-series/>)
 - launched in January 2021 to inspire, engage and support future pediatric investigators in their journey along this career path.
 - initially featured presentations by outstanding pediatric physician-scientists about their science or career pathway, but series was reimagined for 2022 - based on input from trainees - to focus on topics that they consider relevant.
 - announcements are included in the AMSPDC E-News, distributed to PSDP/FIS participants, COMSEP AND APPD, and posted on social media, but **PLEASE** help us get the word out to med students, residents and fellows!

topic	facilitator/speaker	date
The Critical Contribution of Mentor: Mentee Relationships in Your Career Development	Norman Rosenblum MD (Toronto)	1/1/22
The ABCs of CDAs (Career Development Awards)	Matt Vogt, MD, PhD (UNC), Anne-Marie Rick, MD (Pitt), Bereketeb Haileselassie MD, MHS (Stanford)	2/8/22
Professional Identity Formation in Early Stage/Emerging Physician-Scientists	Jordan Orange (Columbia) and Audrea Burns (Baylor)	3/8/22

- **Senior scientist questionnaire**
 - developed and distributed by Dr. Stephanie Davis and a subcommittee to assess Department Chairs' expectations of senior scientists, and opportunities and barriers in supporting senior scientists.
 - results will be submitted for publication in the AMSPDC pages of *Journal of Pediatrics*.
- **Support pipeline development and increase the impact of the FIS Program**
 - proposal for expanded eligibility criteria for the Integrated Research Pathway developed by Drs. Sallie Permar, Wade Clapp and Stephanie Davis of the RC and Rasheed Gbadegesin (Associate Dean for P-S Development and Co-Director Duke CTSA-KL2 Program) and presented to the ABP in October.
 - continue to provide suggestions and support to enhance the PSDP, led by Dr. Permar, and FIS, led by Wade Clapp.
- **Provide the AMSPDC Planning Committee recommendations for scientific content for this meeting**

Research Committee:

Goals for the next 12 months

- **Continue the webinar series**
- **Update and expand existing research resources on the AMSPDC website** (i.e., the Research Toolbox), specifically addressing DEI and considering collating access to courses for faculty that can be posted on this site.
- **Continue to contribute to the AMSPDC *Journal of Pediatrics* pages**
 - Dr. David Gozal recruited a team to craft a manuscript entitled “A Pediatric Telehealth Research Agenda: Another Important Task for AMSPDC” – in revision.
- **Restart the *Visiting Research Professor* program**
 - goal is to provide consultation to Chairs of Pediatrics who are interested in strengthening their departmental research program and desire external input regarding strategies, necessary resources, use of existing resources, appropriate leadership, recruitment/retention priorities and other relevant issues.
 - Last application cycle was in 2019 for proposed visits in 2020 - status of “approved” visits as of today includes 1 visit already scheduled and 2 in planning.
 - Proposed follow-up with hosting chairs to include:
 - 1 month - summary of the visit.
 - 1 yr - update on progress in addressing metrics identified in their original application
- **Support efforts to renew the PSDP grant**
